

**AMENDMENT TO THE SPECIFICATION**

Please replace the paragraph beginning at page 10, line 5, with the following paragraphs:

--Figures 2A-2B show the location of the disrupted portion of the GPRC5B-like gene (SEQ ID NO:1, see underlined portion), as well as the nucleotide sequences flanking the *Neo<sup>r</sup>* insert in the targeting construct (see bold portion of SEQ ID NO:1). Figure 2B shows the sequences identified as SEQ ID NO:3 and SEQ ID NO:4, which were used as the 5' and 3' targeting arms (including the homologous sequences) in the GPRC5B-like targeting construct, respectively.--

**AMENDMENT TO THE DRAWINGS**

Please replace original Figure 2A with new Figure 2A attached herewith.
